

TEST ANALYST TWL6

TASK: Coding Challenge

Brief:

We would really like to progress you to the next stage: The Coding Challenge!

Below are the instructions for the task, please review and work your way through all the parts. If you have any questions, then please do not hesitate to get in touch.

Please return your completed task to testautomation.team@tafensw.edu.au by 9am on Wednesday, 05/07/2023.

The panel will then be reviewing the code and we will come back to you as soon as we can. Looking forward to seeing how you get on. If you are successful in the coding challenge, you will be called for interview on 11th or 12th of July.

The panel will be looking to assess the following Focus Capabilities attributed to the Test Analyst position:

Results	• <i>Think & Solve Problems</i>
Relationships	• <i>Communicate Effectively</i>
Business Enabler	• <i>Technology</i>

The Scenario:

Demonstrate your understanding of page object modelling and BDD by developing a BDD scenario for the following steps and automating the scenario using Java and Selenium.

1. After arriving on the <https://www.tafensw.edu.au/> website
2. Search for a course using the search box e.g.: Advanced Barista Skills
3. Click on the search button to submit the search
4. Verify that the course that you searched for appears in the results
5. Apply the "delivery filter" by setting the filter to "On Campus"
6. Verify that the filter has been applied correctly to your chosen course

Note: The panel will ask you to walk through your response at interview or ask

questions related to the challenge if there are any.
